Raya K. Mohammed received the M.Sc. degree in Information Environment Technology from Tokyo Denki University, Japan, in 2016. Currently, she has been working as a lecturer at the department of Information and Communication Engineering, College of Information Engineering, Al-Nahrain University, Iraq. She is also a PhD. Candidate at the department of Information and Communication Engineering, College of Information Engineering, Al-Nahrain University, Iraq. Her research interests include wireless communication, multicarrier transmission, multiple access techniques, and FPGA Implementations.

Nasser N. Khamiss received the Ph.D. degree in Digital Communication from Lodz University, Poland, in 2000. He received the B.Sc. degree from Mosul University, in 1981 and the M.Sc. degree from the University of technology, in 1987, both in communication engineering. He is currently a professor at the department of Information and Communication Engineering, College of Information Engineering, Al-Nahrain University, Iraq. His research interest includes wireless communication, digital signal processing, Computer Vision, and multimedia.
